Volume XXIV  
July 1976 to December 1976

Published by

TAYLOR & FRANCIS LTD, 10-14 Macklin Street, London WC2B 5NF

## CONTENTS OF VOL. XXIV (Nos. 1-6)

---

---

### NUMBER 1—JULY

Page

Generalized single-input modal control theory. T. R. CROSSLEY ..... 1

Determination of poles and zeros of transfer functions for flexible space-craft attitude control. Y. OHKAMI and P. W. LIKINS ..... 13

Squared amplitude frequency response and Chebyshev techniques applied to continued fraction transfer-function approximants. M. R. CALFE and M. HEALEY ..... 23

Poles and zeros of linear multivariable systems: a survey of the algebraic, geometric and complex-variable theory. A. G. J. MACFARLANE and N. KARCANIAS ..... 33

Design of a zero-sensitive system. T. MITA ..... 75

A representation for multivariable feedback systems and its use in stability analysis. Part I. Linear systems. N. H. MCCLAMROCH ..... 83

A representation for multivariable feedback systems and its use in stability analysis. Part II. Non-linear systems. N. H. MCCLAMROCH ..... 97

Matrix-plane concept and non-linear control system synthesis. D. TEODORESCU ..... 109

The McMillan degree of a polynomial system matrix. A. C. PUGH ..... 129

Design techniques for high feedback gain stability. U. SHAKED ..... 137

On computing the invariant zeros of multivariable systems. R. V. PATEL ..... 145

Correspondence:

A relation between closed loop pole and zero locations. S. N. RAO ..... 147

---

---

### NUMBER 2—AUGUST

Application of the epsilon method and the method of multipliers to a non-linear optimal control problem. R. D. RUPP ..... 149

Feedback control systems with low-frequency stochastic disturbances. A. T. FULLER ..... 165

	Page
Modal control by output feedback. P. N. PARASKEVOPOULOS .....	209
Maximum likelihood identification of a heat diffusion process—a pole clustering effect. B. LEDEN .....	217
Time optimal control of linear discrete systems with multiple control constraints. A. FUJIMOTO and Y. UNO .....	229
Entropy, information flow and variance in regulatory control systems. W. E. JONES and W. SMITH .....	239
The application of Lyapunov methods to large power systems using decomposition and aggregation techniques. M. DARWISH and J. FANTIN .....	247
Multiple circle criterion for diagonally dominant transfer matrices. R. A. SMITH .....	261
Design of linear multivariable discrete-time tracking systems for plants with inaccessible states. A. BRADSHAW and B. PORTER .....	275
Describing function analysis and oscillations in non-linear networks. D. WILLIAMSON .....	283

---

### NUMBER 3—SEPTEMBER

Identification of an automotive gas turbine. Part 1. Frequency response estimation. P. E. WELLSTEAD and D. J. NUSKE .....	297
Identification of an automotive gas turbine. Part 2. Parameter fitting. D. J. NUSKE and P. E. WELLSTEAD .....	311
A Kronecker product approach to pole assignment by output feedback. P. N. PARASKEVOPOULOS and R. E. KING .....	325
Sufficient conditions for the solution of the discrete infinite-time, linear regulator. Y. BAR-NESS .....	335
Combined identification of the input-output and noise dynamics of a closed-loop controlled linear system. B. DEFALQUE, M. GEVERS and M. INSTALLE .....	345
Recursive identification and tracking of parameters for linear and non-linear multivariable systems. M. SIDAR .....	361
Dynamic measurements of a large diesel engine using p.r.b.s. techniques. Part 1. Development of theory for closed-loop sampled systems. J. O. FLOWER and G. P. WINDETT .....	379
Dynamic measurements of a large diesel engine using p.r.b.s. techniques. Part 2. Instrumentation, experimental techniques and results. J. O. FLOWER and G. P. WINDETT .....	393
On the dynamic response and stability of sampled-data non-linear time-varying feedback systems. E. K. HADDAD .....	405
Utilization of the design freedom of pole assignment feedback controllers of unrestricted rank. K. RAMAR and V. GOURISHANKAR .....	423

	Page
The derivatives of useful functions in control theory. C. S. BERGER ...	431
Research note :	
On output control in the servomechanism sense. V. LOVASS-NAGY, R. J. MILLER and D. L. POWERS .....	435
Correspondence :	
Comments on 'A new algorithm for the on-line multi-level control of large interconnected systems with fast dynamics'. M. D. SIMMONS .....	441
Comments on 'Stabilization and pole placement using output feed- back'. E. B. GEORGE .....	443

## NUMBER 4—OCTOBER

Optimal control of distributed parameter systems with penalties on spatial derivatives of the state. G. E. McGLOTHIN .....	445
A heuristic approach to necessary conditions of optimality. V. P. BHATKAR .....	467
The Generalized Root Locus (G.R.L.) method (for similar systems with antisymmetric coupling). P. W. FORTESCUE .....	477
Optimal point-wise discrete control and controllers' allocation strategies for stochastic distributed systems. S. E. AIDAROUS, M. R. GEVERS and M. J. INSTALLÉ .....	493
A general solution to the output feedback eigenvalue-assignment problem. P. N. PARASKEVOPOULOS .....	509
General aggregation of large-scale systems by vector Lyapunov functions and vector norms. Lj. T. GRUJIĆ, J. C. GENTINA and P. BORNE ...	529
Extension of dual coordination to a class of non-linear systems. M. R. JAVDAN .....	551
Nilpotency properties of linear multivariable discrete-time tracking systems. A. BRADSHAW and B. PORTER .....	573
On degenerate systems. P. G. FERREIRA .....	585
A note on Cauer's first form realization by integrators. L. C. AGARWAL and S. VITTAL RAO .....	589
Errata .....	591

## NUMBER 5—NOVEMBER

	Page
An extension in optimal initial choice of multipliers in the quasi-linearization method. B. P. YEO .....	593
A geometric approach to the inversion of multivariable systems. B. KOUVARITAKIS .....	609
Feedback control systems for d.c. electromagnets in passenger-carrying vehicles. B. V. JAYAWANT, P. K. SINHA and D. G. AYLWIN .....	627
Biased penalty function algorithms for optimal control problems with terminal restraints. J. A. GIBSON and W. SEW HOY .....	641
The use of pseudo and oblique pseudo-inverse matrices in power system state estimation algorithms. M. F. ALLAM and M. A. LAUGHTON .....	661
Dynamic compensation for state feedback decoupling of multivariable systems. P. K. SINHA .....	673
Extremal control of pulse-width-modulated systems via an extended maximum principle. R. J. KUHLER and H. H. YEH .....	685
Modelling multivariable systems with industrial specifications. L. S. SHIEH, H. Z. CHOW and R. E. YATES .....	693
Minimal order state observers for bilinear systems. S. HARA and K. FURUTA .....	705
Comparison of the approximate solutions of a noisy non-linear system based on Monte Carlo simulation. Y. SAWARAGI, T. SOEDA, T. NAKAMIZO, S. OMATU and Y. TOMITA .....	719
Research note:	
On the application of matrix generalized inverses to the construction of inverse systems. V. LOVASS-NAGY, R. J. MILLER and D. L. POWERS .....	733

## NUMBER 6—DECEMBER

A general transfer function approach to linear stationary filtering and steady-state optimal control problems. U. SHAKED .....	741
A general transfer-function approach to the steady-state linear quadratic Gaussian stochastic control problem. U. SHAKED .....	771
On the stability problem of multivariable model-following systems. P. KUDVA and V. GOURISHANKAR .....	801
Linear periodic control with applications to environmental systems. W. R. EMANUEL and R. J. MULHOLLAND .....	807
Some reduced-order non-Riccati equations for linear least-squares estimation: the stationary, single-output case. A. LINDQUIST .....	821

## Page

Pole assignment in linear systems with structurally constrained dynamic compensators. R. AHMARI .....	843
On minimal-order inverses of linear continuous time-invariant systems. V. SINIWAT and F. FALLSIDE .....	853
Controllability of linear systems with time-variable delays in control. J. KLAMKA .....	869
Correspondence:	
Comments on "Extension of dual coordination to a class of non-linear systems". M. G. SINGH .....	879
Reply to "Comments on 'Extension of dual coordination to a class of non-linear systems'". M. R. JAVDAN .....	883
Errata .....	887
Subject index .....	889
Author index .....	891
